Committee Group Discussion

- Is it better to get a “B” in an AP/Honors class or an “A” in a regular class?
- Are test scores more important than grades?
- Can a strong essay make up for weak academics? Can a weak essay overshadow solid academics?
- Hooks – what they are, how to leverage them?
- Demonstrated interest – when can it help?
- How can “fit” be conveyed?
- Is an applicant who has not faced adversity at a disadvantage?
- What types of disciplinary actions are forgivable?

Time to Vote

- Everyone gets one vote
- Cast your vote to Admit – Dorri, Henry, or Marcela
- Everyone gets one vote
- Cast your vote to Deny

- This means that the student who was not offered admission and was not denied admission is on the Waitlist.

Time to Reflect

- As you reviewed and discussed the applicants, what were some specific factors that tipped the scale in your admission decision – positively or negatively?
- Were there factors that you initially felt were important but ended up not being crucial in your final vote?
- Did your votes match the decision of the Committee?
- How did you feel about voting to deny a student?
- What lessons did you learn about the admission process?
- Compare your final admission decisions with those of your own student or your parents.
- Students – what will be your “tag” in the admission process?

THANK YOU!
